

Save up to **35%** on water consumption when irrigating.

With **InstaSoil** you can monitor the soil moisture of your crop to manage the time and frequency of irrigation efficiently.

WHAT DOES IT MEASURE?

Parameters / Format	Standard (*)	Temp	Plus
Soil moisture	X	X	X
Soil temperature	X	X	X
Water consumption	X	X	X
Electrical conductivity	X	X	X
Ambient temperature		X	X
Relative humidity (RH)		X	X
Barometric pressure		X	X
Dew point		X	X
Chill hours		X	X
Chill units		X	X
Degree days		X	X
VPD (vapor pressure deficit)		X	X
Soil pH			X

(*) Atmospheric sensor not included.

BENEFITS

- Optimization of water and energy consumption.
- Delivery of customized periodical reports.
- Increase in the profitability of your crops.
- Efficient use of labor.
